## CERTIFIED IN "MUSIC AND MEMORY"

Manoa Cottage Kaimuki, a 27 bed skilled nursing facility dedicated to serving residents with dementia and Alzheimer's became the first private facility in Hawaii to be certified in "Music and Memory," a national program that brings personalized music into the lives of the elderly through digital music technology. Music has been shown to vastly improve the quality of life of people with dementia.

Manoa Cottage Kaimuki staff create and provide personalized playlists for residents using iPod Shuffles that enable those struggling with Alzheimer's, dementia and other cognitive and physical challenges to reconnect with the world through music-triggered memories. Over 1000 songs are available in various genres to customize each resident's assigned iPod Shuffle.

Calvin Hara, Executive Director and Administrator said, "we are truly compassionate about music for all residents.

Whether from the Ipod Shuffles or live music from wonderful community organizations such as the Ebb Tides and many others, we embrace the ability of music to provide a non-pharmacological approach to assist with behavior management and anxiety."

For more information about Music and Memory, go to [www.musicandmemory.org](http://www.musicandmemory.org) or to contact Hara, call 808-426-7852 or email at [c.hara@mckaimuki.com](mailto:c.hara@mckaimuki.com)
